

*UAE Jiu – Jitsu Federation
System Graduation*

In order to unify the teachings, the practice of Jiu-Jitsu and to standardize models of competition, the United Arab Emirates Jiu-Jitsu Federation (UAEJJF) presents this General System of Graduation.

To continue the progress and spirit of the recently renewed Jiu Jitsu Book of Rules, launched in January 2012, the General System of Graduation strives to enhance the athletes' understanding of the graduation process from white belt to red belt.

The UAEJJ has updated the General System of Graduation to provide improvements to our old rules. The biggest improvement is the inclusion of a new grading system for athletes 4 to 15 years of age, which separates each belt rank groups (gray, yellow, orange and green). This new system for athletes under the age of 16 will make the practice of Jiu-Jitsu more exciting and attractive by providing more frequent graduations, which also provides steady advancement throughout the athlete's career.

In regards to the grading system of athlete from 04 to 15 years old, the UAEJJ added additional improvements and suggestions for professors and instructors. For Example: There are three different ways to grant degrees, which the UAEJJ suggests to be done monthly, trimestrial and quarterly. The purpose of this is to track the Jiu-Jitsu practitioner's time within every color belt rank.

The current General System of Graduation is evolving and may need to be modified over time according to the needs of Jiu-Jitsu. The UAEJJ intends to continue working to make the sport easier, more attractive and satisfying for athletes and professors.
